Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 15 March 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-47 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-8, 10, 11, 13-22, 26-29, 31-35, 37 and 39-44 is/are rejected.
- 7) ☒ Claim(s) 9, 12, 23-25, 30, 36, 38 and 45-47 is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☒ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 09 September 2003 is/are: a) ☐ accepted or b) ☒ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

DETAILED ACTION

Election/Restrictions

1. No claims are currently withdrawn in view of the election of 3/15/2005.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the details of claims 7, 9-13, 35-39, must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

3. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: claims 12,13, 38, 39.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-2, 5-8, 10, 11, 13-22, 26-29, 31-35, 37, 39-44 are rejected under 35 U.S.C. 103(a) as being unpatentable over Doehrer in view of Lohr et al.

“Molded” is a process not given patentable weight in a product claim (MPEP 2113). However, Doehrer shows a plastic seat of unified construction back and bottom with disclosed padding. Doehrer lacks the safety restraint integral to the shell, padding, and plurality of brackets to a structural member of the vehicle, a detail known in this art as evidenced by the patent to Lohr et al. at 30, 76, 86 and 46, respectively. It would have been obvious to one of ordinary skill to provide in Doehrer belts, padding and brackets as taught by Lohr et al. in order to secure seat and occupant to the vehicle.

As to claims 5-6, applicant admits this as prior art.

As to claims 2 and 11, see headrest 23 with attached bracket in Doehrer.

As to claim 13, see leg rest 18 of Lohr et al.

As to claims 17-22, see col. 5, line 35 of Doehrer. The construction of claims 18, 19 and the material of claim 20 are of common knowledge in the automotive field and obvious to use for their known advantages. Claim 22 is an obvious known expedient.

Applicant may seasonally challenge, for the official record in this application, this and any other statement of judicial notice in timely manner in response to this office action. Please specify the exact statement to be challenged. Applicant is reminded, with respect to the specific challenge put forth, of the duty of disclosure under Rule 56 to disclose material which is pertinent to patentability including claim rejections challenged by applicant.

6. Claims 3,4, rejected under 35 U.S.C. 103(a) as being unpatentable over Doehrer in view of Lohr et al. as applied to claim 1 above, and further in view of Hitchcock, Jr. et al.

Lohr et al. has plate 46 integral (attached) to the bottom of the seat.

It would have been obvious to one of ordinary skill to provide in the references above attachment plates to back portion of the shell as taught by Hitchcock, Jr. et al. in figure 3 in order to secure the seat.

As to claim 4, see ends of belts 30,76 attached to plate 46. Five and six point belts are connected together as is known in the art.

Allowable Subject Matter

7. Claims 9, 12, 23-25,30, 36, 38, 45-47 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

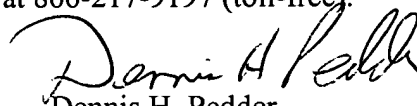

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Lewis, 2004/0012239 discloses a custom seat structure. The remaining references detail race car seats.
